Department of Environmental Services

Michael P. Nolin
Commissioner

LETTER OF DEFICIENCY #WSEB 04-107
Certified Mail #7000 0600 0023 9933 3403

Christos Roukas
Hollis Country Kitchen
248 Worcester Road
Hollis, NH 03049-6441

Subject: Hollis - Public Water System: Hollis Country Kitchen, (EPA# 1178010)

Dear Mr. Roukas:

The records of the NH Department of Environmental Services (DES) show that Hollis Country Kitchen, water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established sampling schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326. Pursuant to Env-Ws 351, the failure to submit a chemical sample within the assigned sampling quarter requires that public notice of such failure be given to all consumers.

DES records show that the subject water system failed to submit the following chemical sample result for the following monitoring period (calendar quarter).

Quarter 1 – 2004 – Nitrate

As a result of the failure to submit the above-described sample, a Notice of Violation (NOV), dated **May 3, 2004**, was sent to you (copy enclosed). The NOV requested that you immediately submit the above-described sample as a make-up sample. To date, DES has not received the make-up sample result, thus placing the water system in violation of Env-Ws 326. In addition, the NOV requested you to perform public notice concerning the nitrate sampling violation. To date, no proof of public notice has been received by DES, thus placing the water system in violation of Env-Ws 351.

DES believes the monitoring/reporting deficiencies can be addressed by taking the following actions:

1. **By August 27, 2004**, submit a nitrate "make-up sample" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis result form when submitting the sample to your laboratory.

In the event compliance is not achieved within this period, DES may take further enforcement action. These actions include issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

If you have any questions regarding this letter, please contact Betsey McNaughten at (603) 271-0659 or by email at emcnaughtne@des.state.nh.us.

Sincerely,

COPY
